Superior Imaging

Dual Leica Summicron Lenses with Variable Focal Length Luna Ultra Only

First dual-lens gimbal camera. Frame with complete freedom.

Co-engineered with Leica, Luna Ultra redefines the game with its dual-lens design. Its main lens features a powerful 1" 8K sensor for unparalleled imaging, while the pro-grade Telephoto Lens boasts a 1/1.3" sensor and F2.0 aperture for natural background blur.

With this powerful camera system, Luna Ultra can zoom in 6× (120mm) with no loss of image quality, and up to 12× (240mm) overall. Combined with five versatile focal lengths at your fingertips, you're ready for any creative scenario, all in one device.

💡 Zoom Level Comparison

	Luna Ultra	Luna Pro
Main Lens Equivalent Focal Length	20mm	20mm
Secondary Lens Equivalent Focal Length	60mm	/
Zoom Steps	1×/2×/3×/6×/12×	1×/2×/4×
Zoom Range	up to 12× (240mm) zoom	up to 4× (80mm) zoom
Lossless Zoom	up to 6× (120mm) lossless zoom	up to 2× (40mm) lossless zoom

Leica Summicron Lens with 1" 8K Sensor

**1" super sensor with 8K Dolby Vision.
Unbeatable image quality, day and night.**

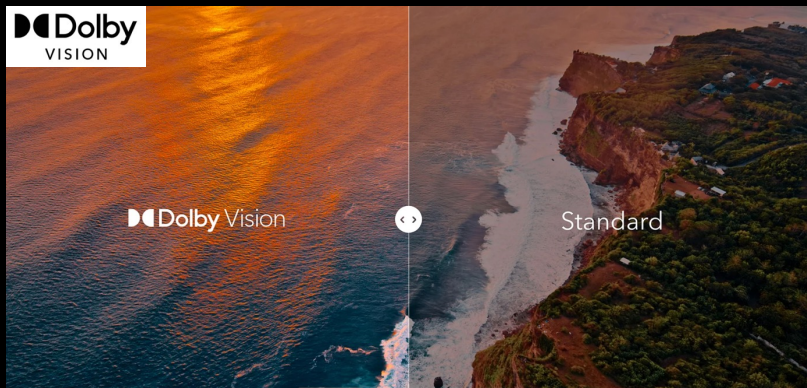

Luna Ultra and Luna Pro's main lens features a 1" 8K sensor with 14 stops of dynamic range, a 20mm equivalent focal length, and an F1.8 aperture. This powerful camera support 8K30fps and 4K120fps Dolby Vision video, capturing cinematic footage in any light.

8K30fps

8K world with every detail visible.

Luna Ultra and Luna Pro support shooting in **8K Dolby Vision video**. Even when footage is cropped and enlarged, details remain crystal clear. Dolby Vision HDR delivers true-to-life colors and stunning dynamic range, bringing **cinematic Dolby Theater quality** to every frame.

4K120fps Slow-Mo

Highlight moments that are worth saving.

4K ultra-clear quality combined with 120fps ultra-high frame rate delivers ultra-clear and ultra-smooth footage. It also supports 1080p240fps slow-mo recording.

Pro-Grade Telephoto Lens

Luna Ultra Only

Zoom in for portraits with unrivaled background blur.

The Leica Summicron telephoto lens features a **1/1.3" sensor**, paired with a F2.0 aperture and **up to 12× zoom** and **6× lossless zoom**.

Luna Ultra delivers **natural background blur** at telephoto focal lengths and excels at **telephoto macro shots**, revealing texture and clarity in ways you've never seen before.

6×

12×

Luna Ultra Only

Telephoto Portraits

Telephoto portraits with natural background blur.

Capture portraits with natural background blur that keeps your subject front and center, supporting portrait effects and color profile overlays.

Telephoto Macro Luna Ultra Only

Telephoto macro shots. Steady and stunning.

Get close with macro-level magnification. Reveal fine textures and crisp details, while **3-axis gimbal stabilization** and the **electronic image stabilization** keeps the telephoto shots steady and composed.

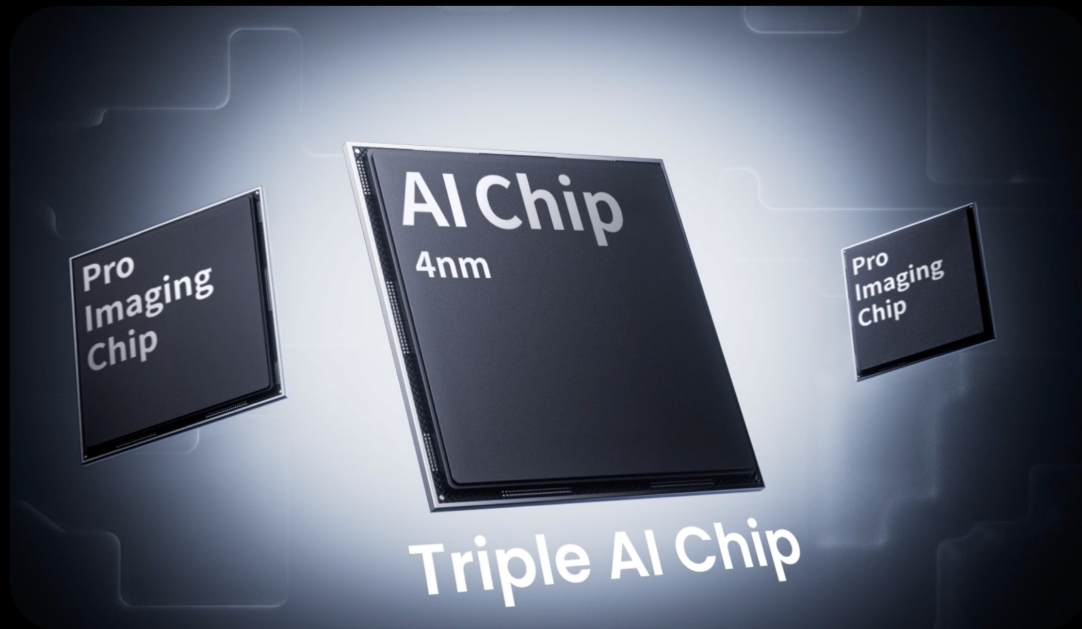

37MP UltraPhoto & 200MP Panoramic Photos

Preserve moments with extreme clarity.

Luna nails photography as well. Enjoy professional clarity and classic 2:1 panoramas with a single tap. You can also capture crystal-clear stills at up to 37MP. And make every shot iconic with the exclusive Leica watermark.

Note:

- 💡 Panoramic photos refer to wide panoramic long images with a 2:1 aspect ratio, rather than 360° panoramas, stitched from 24 telephoto shots.
- 💡 Where to use: Select "Panorama" mode.

Triple AI Chip

Luna Ultra Only

Unprecedented processing power.

Equipped with a flagship 4nm chip and dual imaging chips (3 chips total), Luna Ultra features AI noise reduction and delivers stunning low-light clarity, supporting PureVideo Mode up to 4K60fps. Plus it has a powerful Snapdragon flagship chip, which boasts unprecedented processing power and longer battery life.

	Luna Ultra	Luna Pro
Chips	Snapdragon 4nm AI chip + 2 imaging chips	Snapdragon 4nm AI chip + 1 imaging chip

4K60fps PureVideo Mode

Leading low-light performance.

Our advanced imaging chips and sensor deliver stunning low-light clarity. This is backed up by **PureVideo Mode**, a low-light shooting mode that reduces noise while enhancing brightness and details. Available in up to **4K60fps**.

	Luna Ultra	Luna Pro
PureVideo Max.	4K60fps	4K60fps
PureVideo focal range	20mm-240mm	20mm-80mm

Detachable 2" OLED Touchscreen **Industry-First**

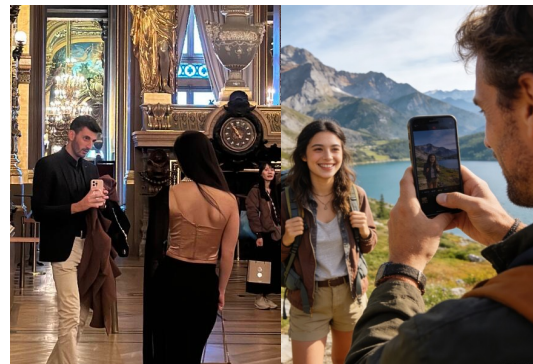

Monitor and control, all in one.

Luna Ultra and Luna Pro introduce an industry-first detachable touchscreen with **HD image transmission up to 20m** and a **built-in microphone**.

The detachable touchscreen enables remote monitoring and camera control, unlocking dynamic selfie angles, and greater freedom in framing. Nails the shot, whether it's solo trips or group photos.

Solo trips

Couples shooting

Group photos

Study Vlogs

3-Axis Stabilization

Pro-level stabilization.

The **3-axis mechanical stabilization** system cancels out shakes in your footage, keeping the camera steady even during dynamic movements. Stay ready to capture every stunning moment.

02

Stunning Portraits

In-Camera Portrait Effects

Shoot your way. Stunning in every frame.

Powered by **advanced portrait algorithms**, it automatically recognizes faces, intelligently adapts to **various skin tones**, and offers adjustable **brightness and smoothing** levels.

Color Temperature Sensor

Advanced sensor for accurate results.

The Luna Series features a built-in **color temperature sensor** that precisely calibrates color directly in-camera. It captures **authentic, natural** skin tones, reduces unwanted color tints, and delivers bright, vivid clarity in every frame.

Elevated Telephoto Night Portraits

Stunning telephoto portraits, even in low light.

Powered by the imaging chips and advanced sensor, Luna Ultra and Luna Pro **excels at capturing portraits in low light with a telephoto focal length.** Shoot sharp, vibrant portraits in dim environments without extra lighting, at **up to 4K60fps.** Stand out under city neon and turn night scenes into true works of art, **with support for portrait effects and customizable color profiles.**

4K Portrait Videos & 4K Live Frame Photos

4K videos & 4K Live Frame photos, straight from camera.

Capture stunning **4K60fps** Portrait videos and **4K** high-definition Live Frame photos straight from the camera, with adjustable brightening and smoothing levels. **Cover frames** are automatically generated from multiple frames for extra clarity. Share instantly, without any post-processing in the app.

03

Signature Colors

Color Profiles

Built-in Leica color profiles and other signature looks.

An exclusive set of **Leica color** profiles infuses your footage with Leica's signature color aesthetics, adding a touch of elegance to every shot. Other signature profiles, such as **NC** and **CC**, offer flexible looks for different shooting styles. All color profiles are based on Insta360's **14-stop I-Log profile**, preserving more detail in highlights and shadows.

Leica Natural

Low saturation with strong contrast, delivering a classic, timeless aesthetic. Ideal for documentary street photography, urban architecture, and scenes with distinct light and shadow.

Leica Vivid

High saturation with bright, vivid imagery, enhancing the warm and inviting atmosphere of any scene through a rich, colorful lens. Ideal for family life, vibrant still life, and other color-rich settings.

Leica Portrait

Warm skin tones, soft contrast, and vignette focusing to create a cinematic light and shadow atmosphere. Ideal for street documentary, mood portraits, and other storytelling-focused scenes.

Pos Film

Based on the Ricoh GR4 positive film filter, it's ideal for subjects with vitality, layered colors, and warmth — particularly outstanding for portraits, street photography, and landscapes.

CC Film

Recreation of Fujifilm's renowned CC filter, delivering authentic film texture with low saturation. Perfect for street photography, landscape photography, and portrait shooting.

Fresh

This filter centers on "youth, coolness, and clarity". It maximizes skin tone preservation while pairing beautifully with clean outdoor scenes like beaches and blue skies, making it especially striking for vibrant portrait photography.

Neg Film

Based on the Ricoh GR4 negative film filter, it's ideal for authentic documentary-style street photography, urban landscapes, and still life/lifestyle aesthetics.

NC Film

Simulating Fujifilm's classic "Negative" filter, it preserves the iconic film look of "bright highlights, shadow detail" while reconstructing greens, blues, and skin tones for greater depth and dramatic tension.

Cinematic

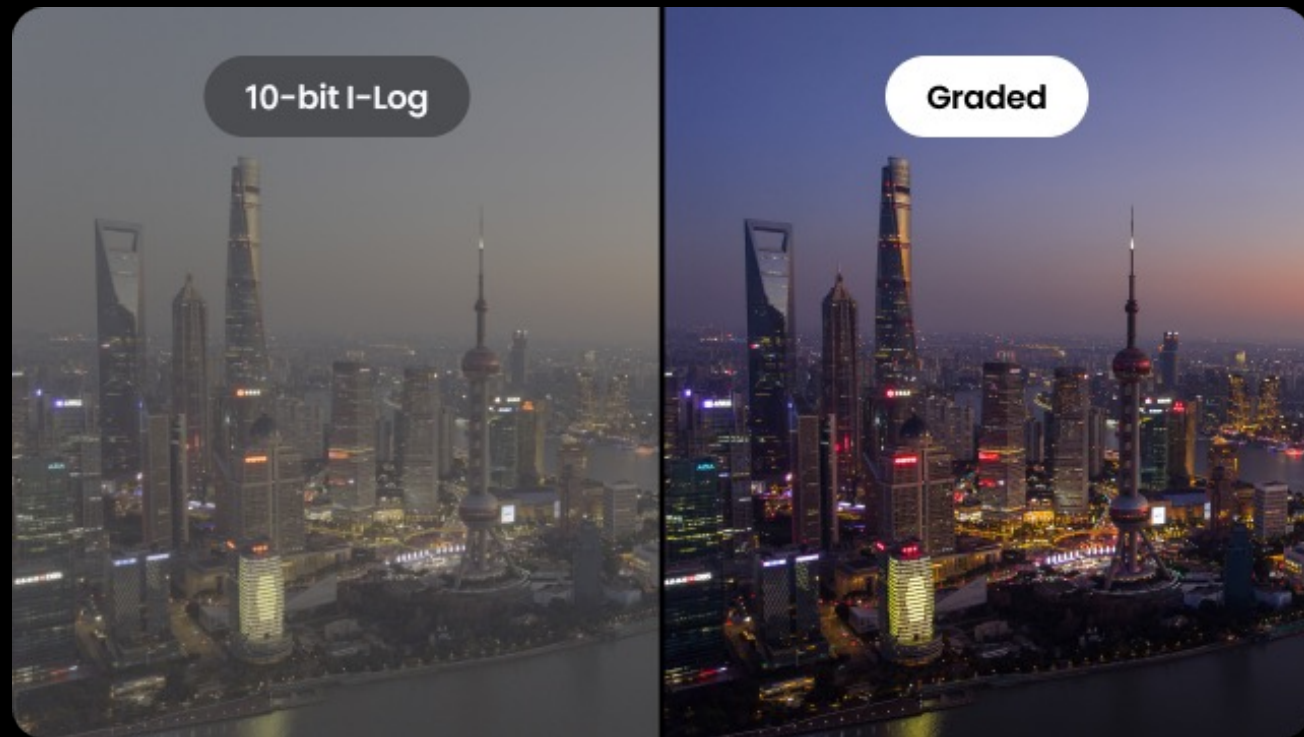

Built on the legendary Kodak 500T cinema negative film, this filter creates a distinctly cinematic, storytelling aesthetic. In daylight or well-lit scenes, it delivers captivating warmth that leaves a lasting impression.

10-bit I-Log for Flexible Color Grading

10-bit I-Log unlocks a wider dynamic range in post.

Luna Ultra and Luna Pro support 10-bit I-Log with up to 14 stops of dynamic range, preserving exceptional detail for stunning flexibility in post-production.

It is also certified by ACES and natively compatible with DaVinci Resolve, ensuring smooth integration into professional grading and finishing.

ACADEMY
COLOR
ENCODING
SYSTEM

Color Temperature Sensor & Anti-Flicker Sensor

Advanced sensor for accurate results

The Color Temperature Sensor automatically adjusts white balance based on the scene for accurate, **consistent color in every frame**. The Anti-Flicker Sensor effectively reduces flicker from artificial lighting to **keep your footage stable and comfortable to watch**.

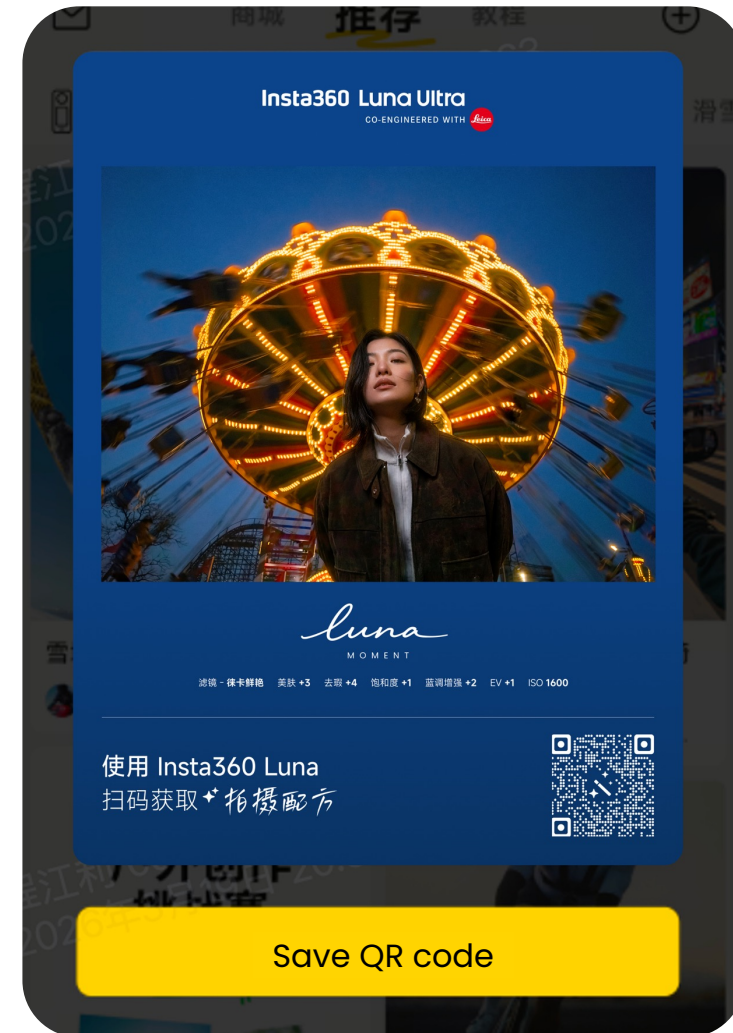

QR Color Share

Scan to share.

Share your color know-how with QR Color Share.
Save your favorite looks as QR codes and let other Luna users scan them with the camera lens to apply the same style instantly.

* Feature name is not final.

04

Versatile & Capable

Light and Portable

Light and portable. Easy to store, and ready to shoot.

The entire device weighs only 215g¹, making it effortless to carry around and comfortable to hold for extended shoots. It's still lightweight and portable even when paired with the **Sliding Protective Case**²—simply pull down to power on.

	Luna Pro	Luna Ultra	iPhone 17 Pro	Canon R50 Kit	Sony ZV E10 Kit
Weight	215g	232g	206g	505g	460g

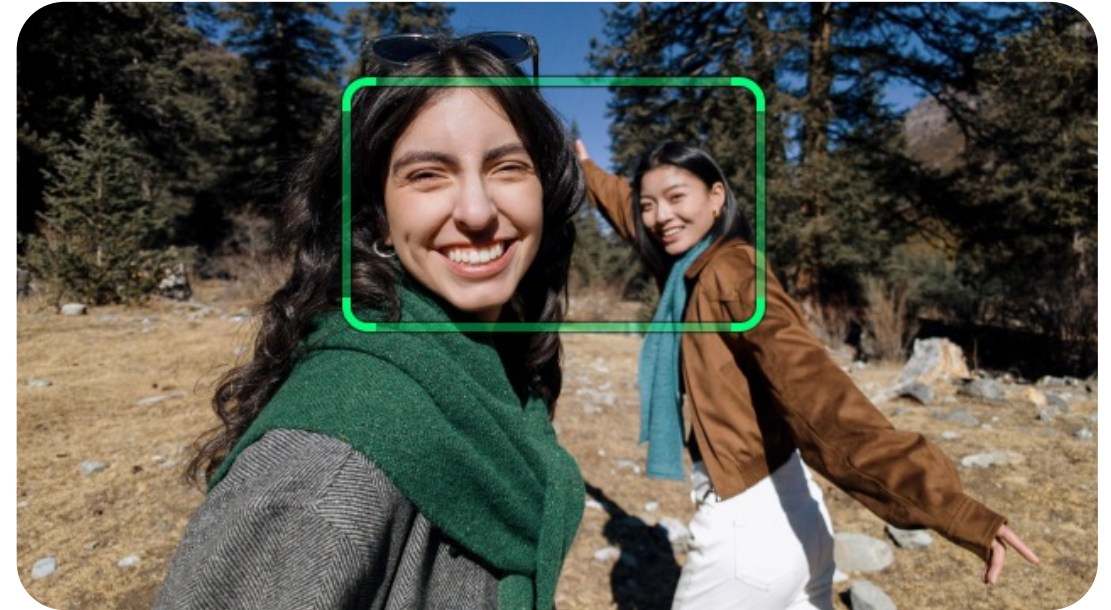

¹ Luna Pro weighs 215g, Luna Ultra weighs 232g.

² Sliding Protective Case sold separately.

AI-Powered Deep Track & Rapid Focus

Track freely. Stay in frame.

Simply tap and drag to frame on the screen, or click the joystick to activate intelligent tracking—keeping your subject locked firmly in the frame at all times. It also supports **multi-person tracking**, so whether you're shooting a group vlog, a synchronized dance, or a trip with friends, no one gets left out of the shot.

💡 Luna series is the only gimbal camera to achieve Group Tracking

- You can frame all subjects in the shot; during filming, the group remains centered in the frame at all times.

Group vlogs

Group Dances

Group sports

Zoom Tracking Luna Ultra Only

**Near or far, stay
locked in on the
main subject.**

Even if your subject moves quickly or is far from the camera, **Zoom Tracking** follows the action and maintains focus in the frame.

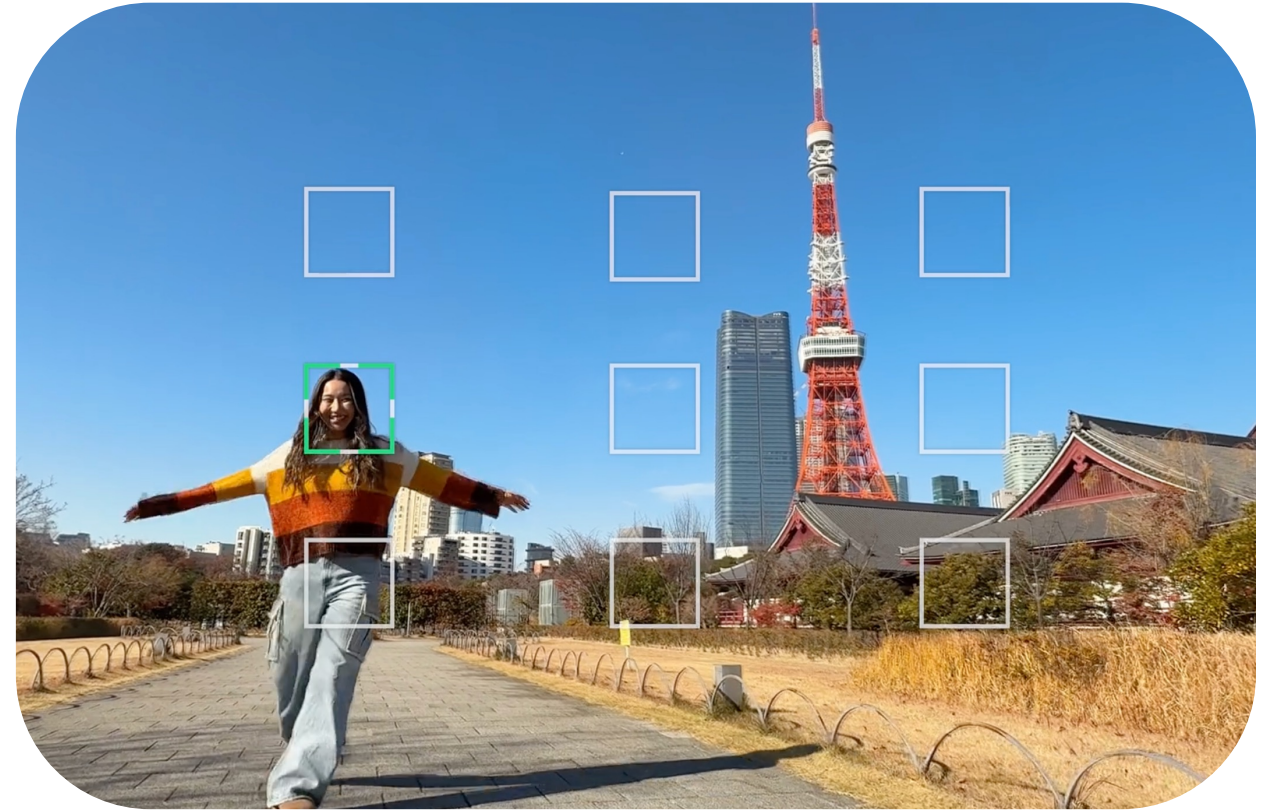

* Feature name not final.

Smart Framing

Pre-set your frame. Design your shot.

Preset your position using a 3×3 grid of golden-ratio points. Luna keeps you in your chosen spot from the start of the recording to the end.

Pre-Installed Wind Guard

Guard your voice.

The pre-installed **Wind Guard** cuts wind noise and capture clearer, more natural sound.

Direct connection with Insta360 Mic Pro.

Level up your audio with Insta360 Mic Pro. Connect up to **two transmitters** directly for dual-person recording and a faster, more efficient audio setup.

4-Hour Battery Life & 47GB Built-In Storage

Born to be reliable with 4-hour battery life and 47GB built-in storage.

Power through with a **1550mAh** battery and up to **4 hours** of use, making it reliable for shooting all day. It also supports PD fast charging, taking your camera to **80%** in just **25 minutes**.

Meanwhile, **47GB of built-in storage** provides ample space to capture and store high-resolution videos and photos without needing an external memory card.

Tested in 77°F (25°C) lab environment, endurance mode, 1080p24fps video with Active HDR off in Endurance Mode. Battery life may vary under different conditions.

Timecode

Precise synchronization for more efficient post-production.

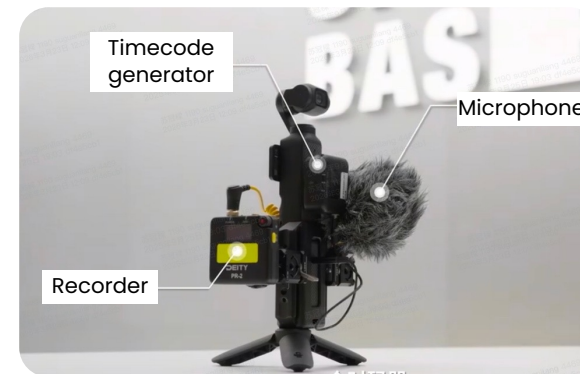

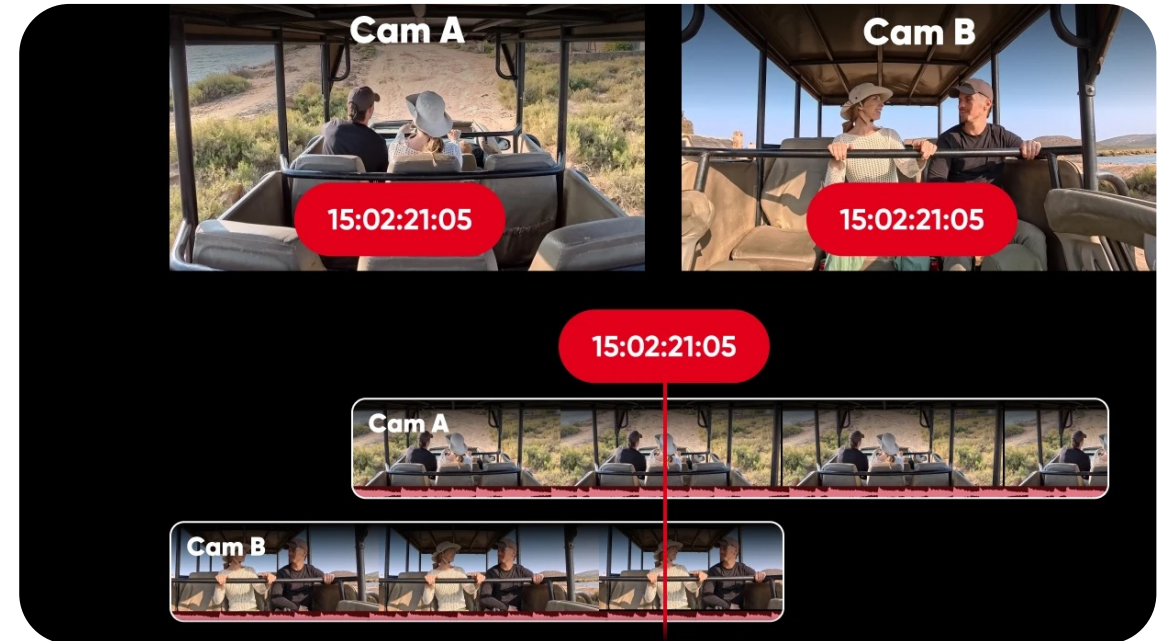

Built-in timecode for seamless multi-camera sync and efficient, precise workflows. Compatible with Final Cut Pro and Adobe Premiere Pro.

💡 User Benefits:

- Ideal for multi-camera shoots, enabling convenient multi-track video synchronization during post-production.
- Applicable scenarios: Variety show recording, micro-film production, multi-camera vlog recording.
- Advantages over competitor: no need to buy a third-party timecode generator; smaller overall size.

💡 How to Use:

- Connect App: Connect the camera to the Insta360 App, and the backend will automatically calibrate the camera's system time, using system time as the timecode.
- Connect third-party external timecode device: Wire the camera to a third-party timecode device to synchronize timecodes.
- Multi-Device Auto Sync: Multiple Luna units automatically sync via wireless timecode. Simply enable timecode, initiate sync from one camera, and complete multi-device timing instantly.

Competitor's solution

Quick Phone Connection & Transfer **Lightning-fast exports.**

Skip the tedious footage export process—wireless camera-to-phone connection delivers your highlight clips instantly.

💡 Step 1:

Select footage in the album, tap the transfer button in the bottom right corner.

💡 Step 2:

Choose your phone type (Android/iPhone), open the phone-side transfer button, and complete the connection.

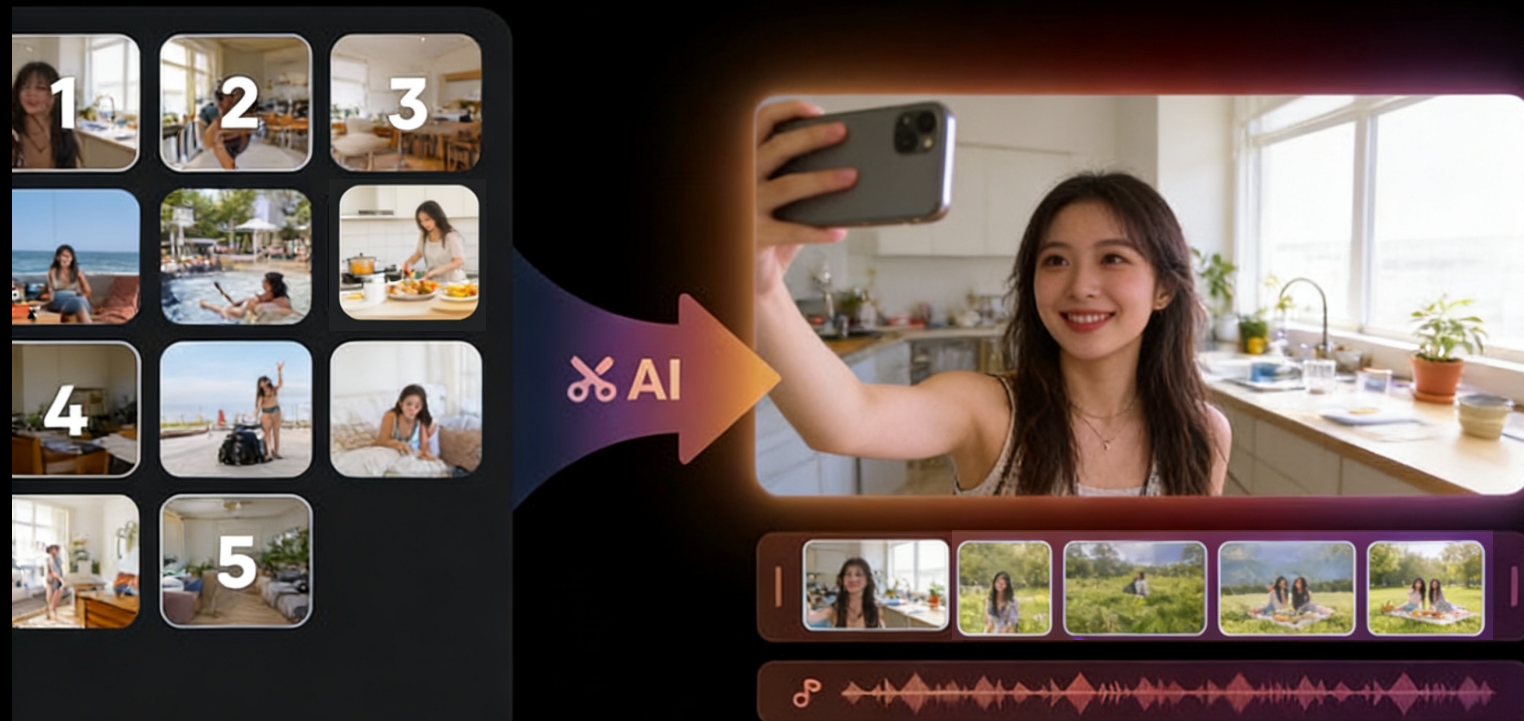

iPhone can only transfer to the app album. Android can transfer to the phone's native album.

05

Creativity Unleashed

AI-powered editing.

Simply import your footage—AI automatically selects templates, music, and transitions, generating creative masterpieces with one click. There's also an in-app **Live triptych feature** and Leica watermark customization ready for you.

Creativity Unleashed

Multiple built-in template to unleash your creativity.

Dolly Zoom

Move the camera in or out while zooming to create a classic cinematic dolly zoom effect.

Barrel Roll

Rotate the frame 180° for a dynamic, FPV-style spinning shot.

Timelapse

Compress time with Motion Timelapse and TimeShift. The app also offers ready-made templates for architecture, city scenes and car shots

Zoom Live & Slow-Mo Live

Highlights key moments.

360 Panorama

Capture the entire scene in an immersive 360 panorama.

In-bundle accessories.

Protective Cover

- Secure fit for added protection.
- Built-in storage for wide-angle and black mist filters.

Battery Handle

- Charge your camera, phone, and more while you shoot.
- Standard 1/4" thread, fits most accessories.
- Built-in tripod base for more convenience.

Wide-Angle Lens

- Expands FOV to 108° for ultra-wide shots.
- Magnetic design. Just snap it on and go.

1/4" Thread Handle

- Comfortable handheld design.
- Standard 1/4" thread, compatible with various accessories.
- Built-in tripod base for convenience.

Carry Bag

- All-in-one bag holds camera & essential accessories.
- Adjustable Velcro dividers let you customize the interior for a perfect fit.
- Water-resistant soft case for worry-free travel.

Wrist Strap

- Lightweight and comfortable to use.
- Secure wrist strap for worry-free shooting.

Additional Accessories

Expand your possibilities.

Sliding Protective Case

- Slide to shoot so you never miss a moment.
- Protects gimbal during storage.

Motion Tracker

naming tbd

- Turn your head to move the shot. FOV video made fun and easy.

Flip Screen Hood

- Shoot like a vintage camera with waist-level framing.
- Effectively blocks sun glare for outdoor shooting.
- Magnetic mount for easy attachment.

Black Mist Filter

- Softens harsh highlights and reduces sharpness to add a smooth, cinematic look.
- Magnetic design for easy attachment.

launch date TBD

Magnetic Adjustable Stand

naming tbd

- Stick anywhere—desks, walls, and more.
- Adjustable stand for flexible multi-angle use.

Neck Mount

- Hands-free FPV shooting.
- Secure mounting for instant use.

ND Filter Set

- 3-stop ND filters tame harsh light for steady, pro-level shots.
- Magnetic design for easy attachment.

launch date TBD

Camera Light

naming tbd

- Small enough to take anywhere.
- Clips on tight, snaps on fast
